

### How it works

The PureNOx Compliance Service Package covers a full five-year compliance cycle. It begins with a start bundle, which includes an Onboard Performance Assessment if your PureNOx system has been operating for more than one year. During each year that follows, you receive a dedicated service bundle that's matched to your system's current needs. We handle the timing, logistics and fifth-year calibration, plus the checks and inspections needed along the way.

Right on schedule, you get everything required to ensure continuous uptime from PureNOx, along with a number of options.

### How the service can be delivered

On site

Remotely

At service centres

On board

In dry dock

# Compliance Service Package

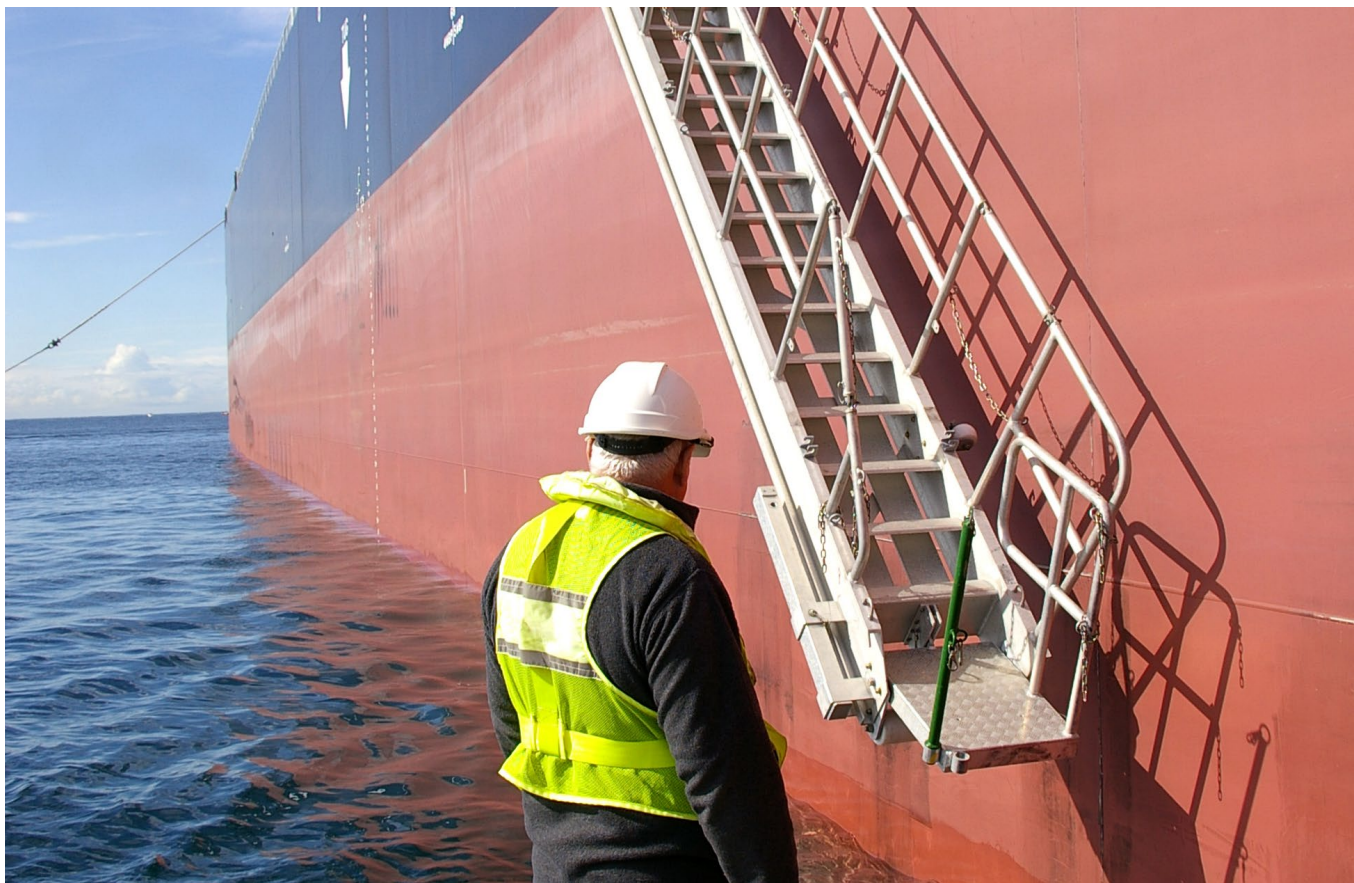

For PureNOx

### The smartest way to stay compliant and minimize vessel downtime

Let us take charge of Alfa Laval PureNOx care – and take a burden off your shoulders – with the PureNOx Compliance Service Package. Over a five-year period of compliance, our experts supply everything you need to perform preventive maintenance, from service kits to training. So you can be sure that it all goes right.

Our service helps you with:

- Annual maintenance according to maker recommendations
- Regular condition checks and inspections
- Crew training
- Certified calibration every fifth year

### 24/7 Service & Support

With service centres, field service engineers and spare parts distribution worldwide, our Alfa Laval Marine Service network is always on the job for you. When you contact our 24/7 Service & Support, our service experts coordinate everything to solve your need – across oceans, continents and time zones.
