

寸法単位：mm

A detailed technical drawing of a vertical radiator assembly. The radiator consists of a central vertical column of 10 fins, flanked by two vertical pipes. At the top, a horizontal pipe with a valve handle is connected. On the right side, there is a control valve assembly with two horizontal pipes and a bypass line. A label with a logo is attached to the right side of the radiator. The bottom of the radiator is connected to a horizontal pipe with a valve handle. The entire assembly is shown in a perspective view.

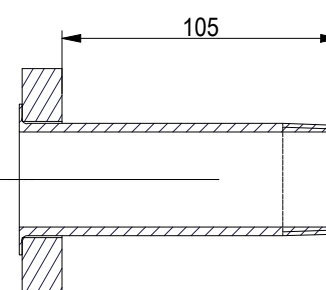

[illegible]

Flat face

Technical drawing of a part showing a cross-section with a diameter of 44 mm and a center line.
