

Alfa Laval M line TS6

Gasketed plate heat exchanger for hygienic applications

Introduction

Alfa Laval M line is a range of gasketed plate-and-frame heat exchangers used in dairy, food, beverage and other hygienic applications. M line is used when the design pressure is above 10 barg (145 psig) or when long plate packs are required. A large range of plate and gasket types is available.

The relatively short plate makes this model suitable for duties with short temperature programs and when a low pressure drop is appreciated. A large range of plate and gasket types is available.

Applications

- Biotech and Pharmaceutical
- Energy and Utilities
- Food, Dairy and Beverages
- Home and Personal care

Benefits

- High energy efficiency – low operating cost
- Flexible configuration – heat transfer area can be modified
- Easy to install – compact design
- High serviceability – easy to open for inspection and cleaning and easy to clean by CIP
- Access to Alfa Laval's global service network

Features

- Corner guided alignment system
- Clip-on gasket
- Leak chamber
- Fixed bolt head
- Key hole bolt opening
- Lifting lug
- Lining
- Adjustable feet
- Tightening bolt cover

Dimensional drawing

Measurements mm (inches)

Technical data

Component	Material
Heat transfer plate, Single plate:	316/316L
Field gasket:	NBR, EPDM, FKM
Connections	Acid proof stainless steel
Frame plate and pressure plate:	Solid stainless steel, clad stainless steel or surface coated

Other materials may be available on request.

The plate heat exchanger can be manufactured according to 3A certification.

The gaskets are produced in compliance with the regulations of FDA.

Operational data

Specification	Value
Pressure vessel codes	ASME, PED
Temperature range °C (°F)	From -10 to 180 (from 14 to 356)
Pressure range barg (psig)	From absolute vacuum to 14.3 (from absolute vacuum to 207.4)

Extended pressure and temperature rating may be available on request.

Connections

DIN, SMS, Tri-CLAMP, BS/RJT and IDF/ISO male parts.

Accessories

Available accessories for this product:

- Protection sheet

General remarks for technical information

- The global offering presented in this leaflet may not be available for all regions
- All combinations may not be configurable

Alfa Laval service offering

Our vision is to be your trusted partner for service, driving sustainable performance together. The Alfa Laval portfolio of service offers for Plate Heat Exchangers from start-up of your operations, through operation, process improvements, and replacement. Throughout the lifecycle, we bring you more than 140 years of technical experience and innovative service solutions tailored to your business needs. Easily accessible through our people all over the world.

For information about our complete service offering and how to contact us, please visit www.alfalaval.com/service.

Sustainability at Alfa Laval

At Alfa Laval we are committed to reaching net zero 2050 across our complete value chain. Our products and solutions support our customers to meet sustainability goals, boost circular business, and develop sustainable value chains. We are living our commitments by also setting clear targets to reach net zero emissions in our own operations and to reduce emissions upstream and downstream in our value chains. For more information about our sustainability journey and our sustainability targets aimed to drive efficiency and behavioural change to achieve better results in the short- and long term, please visit www.alfalaval.com/sustainability.
